Interchangeable Cores – EPIC - Exclusive to Rainer Security Products

Premier Product

Unique to Rainer Security Products, the EPIC small format interchangeable core design is fully compatible with euro profile locks and furniture. No filing modification is necessary and maintains our “One core fits all” policy. Available in 7 pin format across the full Arrow and Keymark x4 ranges and is now standard at no extra cost. EPIC can be installed in new or existing key systems. Arrow’s unique manufacturing process gives EPIC interchangeable cores unmatched strength and durability. The core features four main components: The plug, machined shell, sleeve and faceplate. Arrow’s precision engineering design, together with our keying capability and availability make EPIC interchangeable cores the perfect solution for any master keying application.

Interchangeable Cores – Arrow Pluscore

Premier Product

The Pluscore System offers a totally new concept in interchangeable core key control. The system employs a unique core security feature and patented key design. The unique feature is the pin assembly which runs through the center of the core keyway preventing standard keys from entering the lock cylinder. Only the patented Pluscore key can operate locks with the Pluscore cylinder. All keys are restricted and will be issued with an authorised signature only.

7 PIN INTERCHANGEABLE CORE & PATENTED KEY

- Maintenance (A, B, C, D, E)
- Supervisor A (A, B, D)
- Supervisor B (A, C, E)
- General Manager (All doors)†

Interchangeable Cores – Standard Core

Standard Product

The Standard 7 pin SFIC Interchangeable Core can be supplied combined to your specific requirements or uncombined. Both the core and key are plain faced, non-branded and are available in various manufacturers keyways.

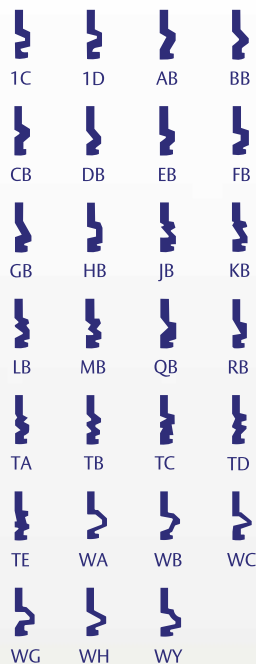

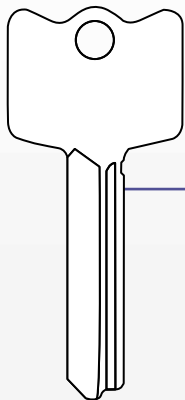

This traditional style core can be used in conjunction with most SFIC housings, although a filing modification will be required if used with Euro profile conversion cylinders.

These standard cores are most commonly supplied for the key-override mechanism in a number of manufacturers digital locks such as the Kaba 1000 series.

7 PIN STANDARD
INTERCHANGEABLE CORE & KEY
