Chains:

Hardened Steel and Boron Alloy Chains available in various lengths. Can be supplied pre-fitted with a captive collar to most of the Master Lock range of open shackle interchangeable core padlocks. Collar allows both Hardened or Boron Alloy chains to be secured to the padlock shackle without welding. Designed for commercial/industrial applications.

Features:

- Hardened Steel or Boron Alloy chain
- Can be supplied pre-fitted to a wide range of padlocks
- Various lengths available
- Optional protective sleeve

Master Lock Padlocks – including 4 Dial Combination variants

Standard Product

PRO SERIES®

Solid Steel Closed Shackle:

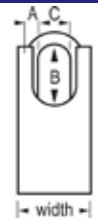

The Master Lock ProSeries® Solid Body Padlock features a heavy hardened steel body with chrome rust proofing and a hardened boron alloy closed shackle for superior cut resistance and security. Available to suit all manufacturers Small Format Interchangeable Cores. Designed for commercial/industrial applications.

Features:

- Solid Hardened Steel Body with Chrome Rustproofing
- Hardened Boron Alloy Closed Shackle
- Can be Master keyed, KA or KD.
- Will accept all manufacturers Small Format Interchangeable Cores

Model	Description	Shackle Dimensions
